

CANCELLATION NOTICE

LF 113, Photo Negative Envelope (April 2003)

Cancelled effective 8-29-07

LF 113, Photo Negative Envelope (April 2003), was the tool used to provide standardization of photo information and protection of negatives. Because center photographers and lab operation have completely been converted to digital photography, there will be no future film negatives to store in these envelopes. As such, these envelopes will not be reordered and the form is officially cancelled. NOTE: Because center personnel occasionally send negatives to the Media Services Branch for storage archiving, use of the remaining supply on hand is permitted until supply is depleted to provide continued standardization of files and the protection of received negatives.
